## 2017 BCGS Specialty Show

Discussion has begun around the 2017 specialty show. We are currently researching locations and timeframe around when the show will take place. Will need to take into consideration other regional show such as Reno when thinking about when we want to put on the show. Gail Harris is meeting with representatives from a couple locations in the south end of Washington as possible options for show site. Because of traffic, wanting to keep the location of the show site south of Tacoma. Will be choosing our judges for the show within the next couple months. There will be an announcement going out beforehand regarding which monthly meeting this will be taking place at.

## 2016 BCA Nationals-Jeff Ryman

Nationals is coming along; down to the last 90 days and activities are picking up. Lost our banquet coordinator, but much of the planning and coordination had been completed and we do have someone else who has stepped in to take on what's remaining. There will be a conference call with the committee members the weekend of August 14th for status from each of the committees.

# Brain the Size of a Walnut Article

Brain the size of a Walnut.  
Bud Colbath

Rosalie and I used to take our dogs down to the Factoria Mall Santa Claus. He loved bulldogs. We met a man who said he had two bulldogs die before they were two. He said he had an autopsy done on one of them and was told the brain was the size of a walnut! Wow!! They can't be very smart....or can they.

I had one Bull Terrier jump out of my old pick-up going about 35mph. Seems like he wanted to see some young girls. I was prepared for the worst when I looked back and saw him trying to gut up with his flailed hind legs behind him. I started to gout out when he made it up and headed for the car. I helped him in and was headed to the vet in Wenatchee. On the way, bloody as he was, he saw a couple more girls and started to bark and look for a way out. I went back to our log home and left him in the car. His son was inside and just started wailing. Dumb huh?

Another time we were looking at some property in Ellensburg when he disappeared, and his son came howling back to us. I got in the truck and found a herd of cattle in a "V" going after him. Sunny, the dad wouldn't back down and was getting the crap kicked out of him. I drove the truck from the back side of the herd until I could get to Sunny. He needed a root canal. Now, that was dumb, but his son sure wasn't.

After Teddy Bear died of a heart attack, Dulcey waited every night under the pool table as that was the area we used to housebreak Teddy. They know so much.

I printed out two articles recently from AKC. The first one was a tear jerker, it told of a baby dying in her crib. The dog in the house would not leave her side for weeks until she finally died. Shows again that dogs don't know anything, right?

The other article was about a person who wrote the AKC and reamed them out saying that their shows and other events promoted "puppy mills". I assume the critical letter was from a normal person who illustrated real intelligence. No, I don't think so. The article which was a reprint from another source was successfully rebuked by the way.

I think the size of a walnut was an unusual situation, but at any rate, it shows that size really doesn't matter.

# Ambassador for Health Award Program

## Bulldog Club of America Ambassador for Health Award Program

The purpose of the BCA Ambassador for Health Award program is to promote betterment of the Breed through health testing by recognizing Bulldogs, owned by BCA members, which have met specific health testing requirements.

### Overview and Deadline:

Each eligible Bulldog will be awarded a certificate suitable for framing which indicates the level of achievement and details the health certifications the dog has successfully completed. Certificates will be awarded annually to all Bulldogs whose owners have submitted a completed application and the required verification to the Health Committee by the deadline date. In order to be recognized as an Ambassador for Health and/or Health Pioneer Award recipient at the BCA Nationals, completed applications must be received by the 1st day of the month immediately preceding the month in which that year's Nationals is scheduled. For 2016, because Nationals will be held in November, the application deadline is October 1.

### Levels and Requirements:

Bronze: Successful completion of any two eligible certifications  
Silver: Successful completion of any three eligible certifications  
Gold: Successful completion of any four eligible certifications

Platinum: Successful completion of five or more eligible certifications

### Eligible Certifications:

OFA Cardiac  
OFA Patella  
OFA Thyroid  
OFA Elbow  
OFA Hip

# Ambassador for Health Award Program continued

## **Bulldog Club of America** **Ambassador for Health Award Program**

The purpose of the BCA Ambassador for Health Award program is to promote betterment of the Breed through health testing by recognizing Bulldogs, owned by BCA members, which have met specific health testing requirements.

### **Application Requirements:**

The Bulldog that is applying for the Ambassador for Health Award must be owned or co-owned by a BCA member in good standing. If the dog is co-owned, the co-owner who is a member of BCA must submit the application. It is not necessary to be a BCA member at the time the tests were performed.

All awards are designed to be a one-time award for each recipient, rather than a recurring, annual award. Additional levels may be applied for the next year provided all verification is received by the Health Committee by the deadline date and the recognition award will be given at the appropriate upgraded level.

### **Pioneers of Health:**

In addition, any Bulldog receiving an Ambassador for Health Award that has also participated in any BCA-initiated or recognized health research project will also receive a Health Pioneer designation which will be included on their Ambassador for Health certificate.

- CERF is considered as part of the Health Pioneer recognition since at this time the Ambassador for Health Award program is comprised only of permanent certifications. A passing CERF certificate that is current at the submission deadline date is required.
- All tests must be submitted to CERF and be part of their public database.
- Certificates for CHIC DNA repository, OFA Spinal Study, and Hyperuricosuria (HUU) DNA screening may be submitted for inclusion in the Health Pioneer designation.
- Proof of participation is required for any other BCA-initiated health studies in order to be included in the Health Pioneer designation.

The Health Pioneer can also be applied for as a stand-alone certificate. However, CERF certification will not be considered for the stand-alone certification.

To apply, access the Ambassador for Health Award application online at:
